Danny McKenzie : A Time to Speak: Speeches by Jack Reed before purchasing it in order to gage whether or not it would be worth my time, and all praised A Time to Speak: Speeches by Jack Reed:

For more than fifty years, Jack Reed, Sr. (b. 1924) has been a voice of reason in Mississippi--speaking from his platform as a prominent businessman and taking leadership roles in education, race relations, economic and community development, and even church governance. Hardly one to follow the status quo, Reed always delivered his speeches with a large dose of good cheer. His audiences, though, did not always reciprocate, especially in his early

years when he spoke out on behalf of public education and racial equality. His willingness to participate in civic affairs and his oratorical skills led him to leadership roles at state, regional, and national levels--including the presidency of the Mississippi Economic Council, chairmanship of President George H. W. Bush's National Advisory Council on Education, and charter membership on the United Methodist Church Commission on Religion and Race. *A Time to Speak* brings together more than a dozen of Reed's speeches over a fifty-year period (1956-2007). The Tupelo businessman discusses the events surrounding his talks about race relations within his church, his deep involvement in education with his close friend Governor William Winter and with President George H. W. Bush, and his own campaign for governor as a Republican in 1987. Danny McKenzie places this original material in historical context. *A Time to Speak* illustrates how a private citizen with courage can effect positive change.
