From Routledge : Accounting in Australia (RLE Accounting): Historical Essays (Routledge Library Editions: Accounting) before purchasing it in order to gage whether or not it would be worth my time, and all praised Accounting in Australia (RLE Accounting): Historical Essays (Routledge Library Editions: Accounting):

The history of accounting in Australia is of interest because it provides an opportunity to examine how accounting techniques, institutions and concepts have been imported and adapted to an environment similar to, but not exactly the same as that of the exporters. The book emphasizes private sector accounting over public sector accounting which is a

reflection of the available literature but not of the real world of Australian accounting and is divided into 7 sections:
Early Accounting RecordsThe Financial YearCorporate Financial ReportingAuditProfessional
AccountancyAccounting LiteratureBiographies and Bibliographies

About the AuthorMultivolume collection by leading authors in the field
