**From Routledge : Accounting Innovation (RLE Accounting): Municipal Corporations 1835-1935 (Routledge Library Editions: Accounting)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Accounting Innovation (RLE Accounting): Municipal Corporations 1835-1935 (Routledge Library Editions: Accounting):

The period 1835-1935 saw the development of the structure of local government which remains broadly intact today

and also the growth of modern financial reporting procedures. This book examines the accounting implications of these developments and places them within the social and organisational contexts in which the events took place. The research is based on the contents of government reports, contemporary literature dating from the mid 1870s and the archival records of five municipal corporations — Birmingham, Bradford, Bristol, Cardiff and Manchester.
