From JAI Press : Advances in Accounting: Vol. 22 before purchasing it in order to gage whether or not it would be worth my time, and all praised Advances in Accounting: Vol. 22:

The twenty-second volume of Advances in Accounting continues to provide an important forum for discourse among and between academic and practicing accountants on issues of significance to the future of the discipline. Emphasis continues to be placed on original commentary, critical analysis and creative research ndash; research that promises to

substantively advance our understanding of financial markets, behavioral phenomenon and regulatory policy. Technology and aggressive global competition have propelled tremendous changes over the two decades since AIA was founded. A wide array of unsolved questions continues to plague a profession under fire in the aftermath of one financial debacle after another and grabbling with the advent of international accounting standards. This volume of *Advances in Accounting* not surprisingly includes several articles reflective on auditor independence, auditor tenure, auditor rotation and non-audit service fees. This volume also looks at challenges facing the academic community with respect to pressures placed on faculty to publish; a data driven commentary is provided by the in-coming editor of the *European Accounting Review*. Other papers examine the use of financial data to estimate risk premiums, and measure the operating efficiency of firms; and re-examine market reaction to quarterly earnings. AIA continues its commitment to the global arena by publishing several papers with an international perspective. As never before the accounting profession is seeking ways to reinvent itself and recapture relevance and credibility. AIA likewise continues to champion forward thinking research.*Addresses the role of the auditor*Investigates how financial data is represented, used, and received*Scope of content is international

About the AuthorJohnson works with Mormonism Research Ministry in El Cajon, California.
