From Emerald Group Publishing Limited : Advances in Management Accounting before purchasing it in order to gauge whether or not it would be worth my time, and all praised Advances in Management Accounting:

Advances in Management Accounting publishes thoughtful, well-developed articles across a broad spectrum of current topics in the field of management accounting, using a variety of research methods including survey research, field tests, corporate case studies and modeling. Volume 27 exemplifies the broad scope of Advances in Management Accounting, examining a number of areas within management accounting.

Contributed by an international group of business, management, and accounting researchers, the six articles in this volume examine topics in management accounting. They discuss financial and nonfinancial performance measures for managing revenue streams in the film industry; the delegation of decision rights in organizations; broadening the strategic focus of management accounting; how to integrate environmental performance measures in the balanced scorecard framework; moving academic management accounting research closer to practice; and drivers of management control systems adoption in small and medium-sized enterprises, including the role of a full-time accountant. Distributed in North American by Turpin Distribution. --Annotation (c)2017 "(protoview.com) "About the AuthorMary A. Malina is an Associate Professor of Accounting at the University of Colorado Denver. Her research interests include management control systems, performance measurement and subjectivity in performance evaluation. Her work has been published in several international journals including Contemporary Accounting Research, Journal of Management Accounting Research, Management Accounting Research and Group Organization Management. She serves as Editor of Advances in Management Accounting.
