**G. Jack Bologna, Paul Shaw : Avoiding Cyber Fraud in Small Businesses: What Auditors and Owners Need to Know** before purchasing it in order to gage whether or not it would be worth my time, and all praised Avoiding Cyber

## Fraud in Small Businesses: What Auditors and Owners Need to Know:

**INCREASE THE LIFE SPAN OF YOUR SMALL BUSINESS** The average small business has a life span of about five years, and inadequate internal controls are the main cause of failure. Cyber fraud, the leading culprit today in internal criminal activity, occurs when advanced technologies are used to steal money or property. The majority of such crimes occur in-house, and the lack of sufficient capital and technological resources committed to protecting company assets makes small businesses especially vulnerable. Awareness of the dangers of internal theft by computer, illegal access to information systems, credit card fraud, and Internet scams is integral-especially as auditors, business owners, and managers are increasingly held responsible for negligence. Providing critical guidance on what auditors and businesses can do to better prevent and detect the growing number of occurrences of cyber fraud, the information in this one-of-a-kind manual: \* Protects outside auditors by supplying the knowledge to ensure they meet their responsibilities \* Protects small business owners by providing them with the necessary tools to meet due diligence requirements in cyber fraud prevention \* Focuses on the key areas of vulnerability Take the first step in protecting your company-and your future-with *Avoiding Cyber Fraud in Small Businesses*, the only book committed to helping you keep your small business free of computer crime.
