Susan Eva Eckstein : Back From the Future: Cuba Under Castro before purchasing it in order to gage whether or not it would be worth my time, and all praised Back From the Future: Cuba Under Castro:

This book has long been regarded as the definitive history of Castro's communist regime, beginning in 1959 through the 1990s. This updated, second edition contains a new epilogue by the author that covers the last decade, including such newsworthy events as the Elian Gonzalez controversy, the growing immigrant community of Cuban-Americans

in Florida, the role of Cuban-Americans in the 2000 presidential election, the withering U.S. sales embargo and the inevitable transition of power now that Castro is in his mid-70s.
