The Kingmaker is a book, a case study and a self-help guide to helping individuals find their true purpose in life as individuals, as contributing members to society and as leaders. The principles discussed and presented, when applied,

will have a great impact on the reader. In our day and age with so much going on, so much information and so much confusion, it's refreshing to have a book that brings it all back to the center. The Kingmaker will help you change your life, by living your life on purpose! 0 of 0 people found the following review helpful. A Thoughtful Challenge for the Reader on Your Purpose By Scott Corbitt I enjoyed The Kingmaker. It was a good read that should make you think about the course of their career or life. It's not another "how to" or self-help book, but rather it is a book that challenges the read to review their purpose. I recommend it. 0 of 0 people found the following review helpful. Would highly recommend. By Customer A short and enjoyable read with some strong and refreshing takeaway points on leadership, purpose, and life balance. The characters make the story. Would highly recommend.

At the heart of this leadership story is the central idea that success—where purpose, talents and resources come together to meet the needs of others—cannot be achieved in isolation. In The Kingmaker, Kyle Ellis, the CEO of powerhouse PR firm Ellis International, is known in an elite circle of people as The Kingmaker. Unlike others in his field, Kyle has the ability to unlock the true potential within his clients while guiding them to the world's highest levels of power. After years of masterfully engineering careers to the height of success, Kyle suddenly finds that an alarming number of his "Kings," as they are known within his close network, are falling from power. Over the course of only a few short weeks, two of Kyle's most high-profile clients have collapsed into trouble. Kyle is forced to step in to play damage control not only to save their careers but, in one case, their very life. With longtime friend and driver Parker McIntosh offering keen insights into the motivations of people in their circle, the two form a perfect pairing to master the strategic chessboard of business and politics.
