of 21 offices. I have little time for reading but I found this book to be very beneficial to me in my work and in managing what little is left of my life outside of work. I would recommend it for anyone who has a very demanding job that involves a lot of leadership skills and people skills. Leave work a little early, take a cocktail, a plate of cheese and apples with some fancy crackers and your dog, to the patio and sit down with a paper book full of pages for a change and you might be surprised what you'll learn in a short amount of time about what you're doing right and not just what you're doing wrong! 0 of 0 people found the following review helpful. GreatBy Gordon G. MarcumGreat Book...recommend it to any one interested in learning about leadership. 0 of 0 people found the following review helpful. Good discussion of tactical, strategic, and transformation optionsBy Ken KesslerI appreciate the work Kevin and Ken had done on leadership options. I like the way they have built on Heifetz's adaptive change concepts in transformational option. Many leaders will find the delineation of areas helpful. The East Lake community transformation was a good case study. I am trying to think how to use the concepts to helping churches in the many transformational changes they face.

Tired of leadership cliché? Ready to become a truly life-changing leader? In today's complex and ever-changing world, leadership is a tough pursuit—whether you are leading a business, department, church, nonprofit board, team, or even a family. At every turn, you face leadership obstacles, challenges, and opportunities that demand choices. What if you had, at your fingertips, the ability to understand the choices you need to make and a toolbox of tried and true options from which to choose?

This terrific book offers clear and precise options that a leader can choose in order to successfully transform their organization to meet the challenges of these uncertain times. . .the result is a powerful read. ---Stephen M. R. Covey, author of *The New York Times* and #1 *Wall Street Journal* bestseller, *The Speed of Trust* I love this book! I am a firm believer in a situational approach to leadership. You not only need to use different strokes for different folks, but also for different situations. Ford and Tucker do a superb job of the latter scenario. ---Ken Blanchard, coauthor of *The One Minute Manager* and *Leading at a Higher Level* About the Author Kevin Ford is the Chief Visionary Officer and Managing Partner of TAG Consulting. Those are the things that truly transformational leaders do. And, we will see, these are the things that you can do whether you are a businessperson, head of a not-for-profit or a volunteer organization, or leader of a church. The challenges that faced East Lake and Tom Cousins were unique—as are yours—but the principles of the Leadership Triangle which he practiced are universal."
