1 of 1 people found the following review helpful. Interesting history and trivia, but confusing organization By Aisling D. I've been studying this topic for years, and bought this book to see if it offered information I didn't know. It included

enough fresh information that I'm happy with it. However, reading it isn't easy. I understand the logic of how the information is organized, but this isn't an easy book to read. The author gets top marks for thorough and interesting research. I can confirm that most (not all) of his information is accurate and historically founded. However, the book is best for people like me who are familiar with the subject or don't mind flipping from one section of a book to another, putting the pieces together, in context. 0 of 0 people found the following review helpful. Awesome. By KSD Oh boy, but this and a magnifying glass and be prepared for nightmares. In my opinion, a great book. 0 of 0 people found the following review helpful. An Interesting Read By Hottie Pepper For some reason I had difficulty retaining what I was reading; so I had a dollar bill and checked out what was being introduced.
