R. Warwick, D. Board : The Social Development of Leadership and Knowledge: A Reflexive Inquiry into Research and Practice before purchasing it in order to gage whether or not it would be worth my time, and all praised The Social Development of Leadership and Knowledge: A Reflexive Inquiry into Research and Practice:

In an increasingly complex and interconnected world, the authors make a case rich in theory and narrative for a new reflexive approach to real life situations. This approach (immersed reflexivity) draws on Pierre Bourdieu's logic of practice and the complexity sciences.
