**Mark J. Kohler : The Tax and Legal Playbook: Game-Changing Solutions to Your Small-Business Questions** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Tax and Legal Playbook: Game-Changing Solutions to Your Small-Business Questions:

66 of 68 people found the following review helpful. Good Book, But a Little Light. Still Important to ReadBy W. HallThis book is good, but not great. It has the potential to be great, but needs a little more depth. For example, the book has a section on employing family. It even positions this as one of the most important and advantageous

strategies. I think this section is about 5 pages and doesn't talk at all about the spouse, only kids. There is sooooo much more to talk about that isn't covered. Sandy Botkin's book is a lot more mature when it comes to tax strategies. This book is strong in general legal guidance which is important. Thus, if you want to do this right, you're going to have to read 3 books: This one, Botkin's book, and Nolo's books about small business taxes (example: Deduct It). Overall, this is a good book and should be required reading. It's a little shallow in places, but still important. 15 of 16 people found the following review helpful. Highly Recommend By Scott Kaiserman I used to feel fearful and intimidated by this type of information, until I came across Mark Kohler. He explains tax and legal strategies in a way that is not only instructive, but also entertaining. I mean, isn't this stuff supposed to be boring? The fact is, taxes are one of the largest expenses we will ever have, and asset protection is becoming more and more critical in today's legal environment. Thank you, Mark Kohler for showing me that it's not only how much you make, but how much you keep. I not only highly recommend this book, but I also bought 20 copies because I believe everyone MUST read it. 2 of 2 people found the following review helpful. Informative By Customer I just started my own S Corp and newbie in this field and found this book to be informative and easy to read! I will definitely implement some of the author's suggestions and will be sharing this book with all my women entrepreneurs!
