Keith Cameron Smith : The Top 10 Distinctions Between Winners and Whiners before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Top 10 Distinctions Between Winners and Whiners:

4 of 4 people found the following review helpful. Winners don't whine, and Whiners don't winBy Steve BurnsThis is such a powerful little book. It cuts to the core of why winners win, they think positive thoughts, relate well with people, and focus on their responsibilities and priorities. Winners are always growing, have gratitude for what they already have, and are focused on their goals. But most importantly they don't whine. Whiners make excuses for why they can't be successful, they blame, they think negatively, they don't take care of their responsibilities, they focus their time on things that are not important. They rarely even set goals. Whiners have trouble believing their circumstances exist because of their choices. What is the #1 cause of being a loser? Whining.Here are my favorite

chapter lessons: Winners take responsibility. Whiners play the victim. Winners find a way. Whiners find an excuse. Winners brighten a room by entering. Whiners brighten a room by leaving. Winners think big. Whiners think small. This is an excellent book for people to bring to work and share with their colleagues and coworkers. I am glad this book was kept short, condensed, and to the point. You can get all the powerful lessons without adding an extra hundred pages of fluff like other books do. This is important to me because I value my time. This book empowers its readers with simple truths that can transform our lives. 0 of 0 people found the following review helpful. Five Stars By Customer Excellent book and shipping was fast! 0 of 0 people found the following review helpful. Disappointing By Kindle Customer I had hoped the chapter text would have more meat. Basically, if you check out the table of contents in "look Inside" you have the book. I will donate my copy to a prison Toastmasters club, because they have almost no resources, and this falls into the "better than nothing" category.
