excellent investigative work from Jim Marrs. Plenty of facts about the Global Financial Crisis and how a handful of powerful bankers profited from it and from the government bailouts. The author goes on to define the 'Nation of Zombies', or how a powerful elite manipulates the uninformed and uneducated masses through the mass media and by poisoning their food and water, to produce 'zombies' ('sheeple') to serve its purposes of control and domination. A very grim scenario. Fortunately, at the end of the book he provides some hope in the form of 'Solutions' to break the spell of the evil elite and help the people restore their faith in Democracy and Freedom.

Unfortunately this book does not live up to the standard of other books by Marrs, such as Cross-Fire. He covers too many topics too shallowly. Some are valid and some are not, but I will avoid "spoilers". He is too uncritically accepting of ideas from The Creature from Jekyll Island, as an example.
