KathyDonchakThis is a companion to Gardner's book on Multiple Intelligences. His idea of museum type school environments is something that homeschool families can do on their own.0 of 0 people found the following review helpful. Unschooled MindBy Rachelle BanhartI ordered this book, because I am taking a class that required it. The information is good and relevant to education today, however it is not an "easy read." I would suggest reading it with someone and sharing your thoughts.

Merging cognitive science with educational agenda, Gardner makes an eloquent case for restructuring our schools by showing just how ill-suited our minds and natural patterns of learning are to the prevailing modes of education. This reissue includes a new introduction by the author.
