Solid book, but not quite everything I hopedBy FrankThis book is filled with sound pratical financial advice!!I was a little dissapointed that some of the sections were a little to broad. There is so many topics covered that I am sure that it was hard to put in all the information that they wanted to.My second complaint is that it is not christian enough. There are not as many references to the bible of wanted. Larry burkett has another book, How to manage your money that is more along that line.Overall, this is a solid book, and provided me with lots of great info ranging from budgeting, buying a car, investing, retiring, and more.8 of 16 people found the following review helpful.
