**Guy A. Hale : Think Fast!: Accurate Decision-Making, Problem-Solving, and Planning in Minutes a Day** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Think Fast!: Accurate Decision-Making, Problem-Solving, and Planning in Minutes a Day:

2 of 2 people found the following review helpful. This is great for anyone starting into Management who hasn't worked in ...By SwitchThis is great for anyone starting into Management who hasn't worked in a field of problem

solving prior. I found some of the advice to be rather pedantic, and the motivational writing style can wear on you. You're still reading? Wow! You're doing super duper great!! Keep it up! I definitely gleaned some helpful insight, but overall it seems like a lot of common sense that perhaps my career had already afforded me. 0 of 0 people found the following review helpful. ... to this book and I found the info very useful. I will be incorporating the info in this ... By L. Proctor A client turned me on to this book and I found the info very useful. I will be incorporating the info in this book into my life. 2 of 2 people found the following review helpful. This book seems to be written for the exact opposite ... By Anon This book seems to be written for the exact opposite type of individual than it is advertised for. I tend to OVER think, agonize over decisions and not act quickly enough, so I was motivated to read this book and speed up my process to be more efficient. I thought this book would teach me how to more quickly and confidently make decisions, but instead it breaks the process down into something similar to what I already do, which is quite time-consuming. There are several places in the book where the author adamantly cautions "STOP!" or "Slow Down," so I'm not sure why he titled the book "Think Fast!" Certainly there are impulsive people who would benefit from this approach, but it is not what the book promises to deliver.

Apply proven critical thinking processes and supercharge your business Alamo Learning Systems has been providing Critical Thinking Skills (CTS), problem solving, decision-making, preventive action, and innovation training solutions to the corporate world for more than 35 years.
