**Iain Christie, Eneida Fernandes, Hannah Messerli, Louise Twining-Ward : Tourism in Africa: Harnessing Tourism for Growth and Improved Livelihoods (Africa Development Forum)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Tourism in Africa: Harnessing Tourism for Growth and Improved Livelihoods (Africa Development Forum):

Tourism energizes economies and fuels the economic transformation of countries from Cape Verde to South Africa. Its benefits are clear: it can trigger infrastructure improvements, create good jobs, increase domestic consumption, and diversify exports. It also empowers women, young people, and marginalized populations, contributes to each country's national image, and stimulates cultural heritage and environmental conservation. What's more, tourism is a demonstration sector which leads private sector growth through its linkages across other sectors. It has demonstrated resilience over the years and through economic and natural crises. This book presents how tourism initiates these outcomes, while highlighting how Sub-Saharan Africa can address the persistent constraints to the growth of tourism in the region. The challenges that can be overcome pertain to land availability; investor access to finance; taxes on tourism investments; the level of tourism skills; security; safety and crime; public health; international and intraregional transportation; and an unpredictable business climate. Going beyond an analysis of the sector, the 24 case studies gathered in this report from around the world illustrate how tourism development can succeed. Based on these, recommendations for tourism development in Sub-Saharan Africa are elaborated for countries at different development stages. Some strategies are more applicable to destinations initiating tourism, others are for those looking to scale up tourism or to deepen tourism success. The case studies reveal that despite destination needs, challenges, and approaches that change over time, the basic elements needed to initialize, increase, or intensify tourism's success are applicable across Sub-Saharan Africa.

About the Author Iain Christie is a barrister, mediator and actor. Formerly a legal adviser in HM Diplomatic Service, he is a member of chambers in London specialising in media and entertainment law. He is also a practicing mediator and facilitator and committed to alternative dispute resolution
