After reading it, I feel as if I am getting the mindset of him to "go with your gut if the deal seems too good." It shows the power of him and how quick thinking he is when he is on the spot. In the book he said he could go through 10 topics on the phone with someone in 5 minutes. He gets straight to the point and I like that. He also talks about rebuilding the skating rink in New York, going to

charities, asking his friends to donate to them, and speaks well on people who he wasn't a fan of. Although I was beating him every day in court, I knew he was bright. 0 of 0 people found the following review helpful. Another book requested by my son. He is a Trump fan and is very interested in his thoughts and how he got to where he is today. The book was definitely enjoyed. 0 of 0 people found the following review helpful. Gift to our son who is in the process of reading it. I will read it when he is through.

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big.—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for success. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. Trump: The Art of the Deal is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. From Publishers Weekly This boastful, boyishly disarming, thoroughly engaging personal history offers an inside look at aspects of financing, development and construction in big-time New York real estate. "I don't do it for the money," maintains Trump, the son of a Queens realtor who, at age 27, bought and transfigured the colossal Hotel Commodore at Grand Central Terminal. Now 40, he has built, among other projects, and owns outright, Fifth Avenue's retail and residential Trump Tower (where he occupies a double-triplex suite); owns and operates Trump's Castle, a casino in Atlantic City; is arguably the most visible young man on Manhattan's celebrity circuit ("Governor Cuomo calls. . . . dinner at St. Patrick's Cathedral. . . . I call back Judith Krantz"); and is currently developing a controversial 100-acre West Side "Television City" project that is planned to include the world's tallest building. For those who would do likewise, Trump articulates his secrets for success: imagination, persistence, skill at "juggling provisional commitments" (e.g., for land or lease options, bank financing, zoning approval, tax abatement, etc.) and most crucial of all, a true trader's instinct. 135,000 printing; first serial to New York magazine and Vanity Fair; Fortune Book Club main selection; BOMC alternate. (December Copyright 1987 Reed Business Information, Inc. From Library Journal This is a fascinating book because it is incredible. At the age of 41, Trump, the son of a Queens, New York, developer of moderate-income apartment houses, presides over a vast real estate empire with assets in the billions. Trump's world is composed of an endless series of deals and ventures, most of them monumentally successful from his point of view. The book is less an autobiography than an hour-by-hour recapitulation of how Trump spends his time plus a few lessons for those who would do the same. Trump seems to be a clever entrepreneur and exhibitionist. There should be requests aplenty for this. A.J. Anderson, G.S.L.I.S., Simmons Coll., Boston Copyright 1988 Reed Business Information, Inc.
